Marketing Methods by Two Horizon Trading

Introduction

TWO HORIZON is a manufacturer, supplier and seller of consumer needs products. The company leads by Mohammad Raziq Azwan bin Fazrul Azhar and Khairil Izad Syawal bin Kaswadi. Two Horizon emphasizes on quality and consumer satisfaction, focusing on everyday use products such as home detergents and being marketed directly to end users.

Marketing methods

Our method is online marketing and direct-to-end user sales. We create a new system which is a spending REVOLUTION nowadays where the company and consumers collaborate in one **system** to profit each other with the aim of educating the community to become SMART CONSUMERS and making shopping 'POWER' as lucrative 'ASSET'. We named the system, **Synergy Zyklen**.

Synergy

The meaning of SYNERGY is synergism; broadly: combined action or operation.

Zyklen

The Zyklen is inspired by the word Zyklus from Germanic language which has the meaning of; cycle,period.The combination of Synergy Zyklen shows that the power of community will support the sales which is in the cycle of this system. In this system, the sales of company will be shared with the community.

How does the system work?

The Synergy Zyklen system at Two Horizon operates on a unique and sequential model, incorporating all product units sold, whether by the company or consumer/seller. Each cycle ranges from 1 to 30 units, tracking sales data precisely based on the date and time of each individual sale. This cyclical process continues as long as products from Two Horizon are sold and utilized.

What sets the Synergy Zyklen system apart is its rewarding nature. Users of Two Horizon enjoy double cashback benefits, creating a dynamic and mutually beneficial cycle that maximizes value for both the company and its users.

At Two Horizon, we believe in empowering our users with choice. Our users fall into two categories:

- Consumers
- Consumer / Sellers

We value your freedom. Therefore, you can choose to be a user, a seller, or both, and the decision is entirely yours. Your experience with Two Horizon is personalized to suit your preferences, making it a seamless and individual journey.

Graphic shown is to demonstrate our system flow and to show how it operates.

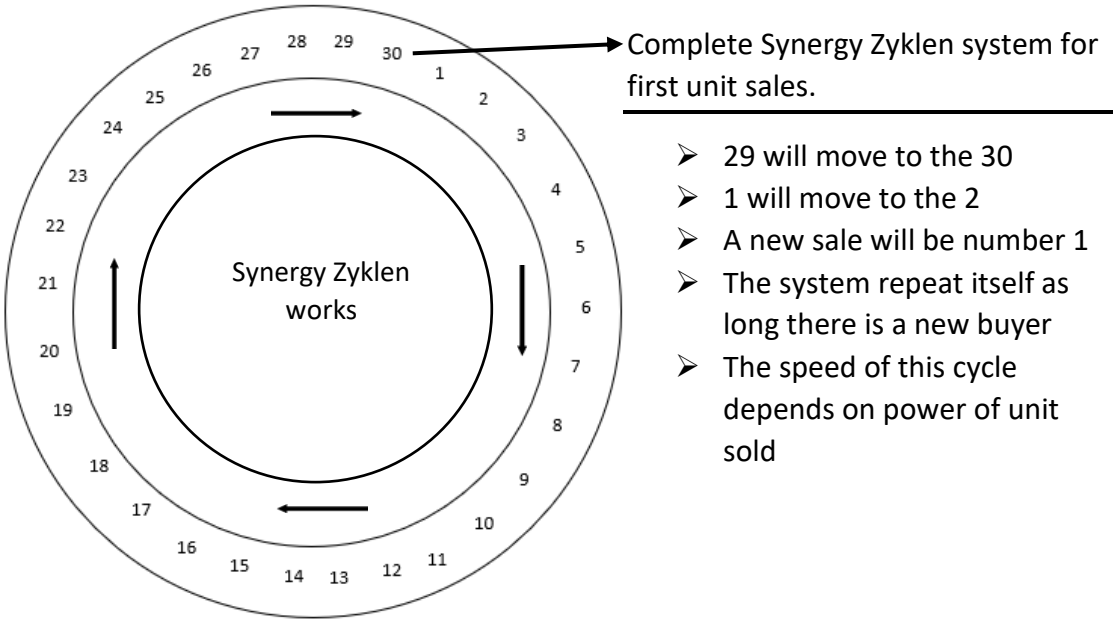

Figure 1. Synergy Zyklen system

This repetition continues as long as there's a new buyer, and the cycle speed is influenced by the power of units sold. Sellers and buyers have the potential to receive cashback through this system, working on the same principles. It means both of them will get their cashback reward respectively once the cycle completed.

Conclusion

Through our system, users gain a valuable advantage with cashback rewards with every purchase. Therefore, our system provides a financial benefit and also serves to ease their overall expenses, making our products a more cost-effective choice.
